

Wingman

Your ultimate *festival wingman*.
Swipe less, experience more.

- **The Problem:** Hundreds of overlapping events cause schedule paralysis and missed connections.
- **Our Solution:** Turn a massive festival program into personalized recommendations with built-in urban navigation.

Architecture & Pipeline

Module 01 – Query Processing

User tags & text in → FastAPI & LangChain Agent → Filtered Metadata & Optimized Search Query

Module 02 – Semantic Search

Optimized Query → Precomputed OpenAI Vector Database → Ranked Events via Cosine Similarity

Module 03 – Interactive Swipe UI

Ranked Event Data → HTML/JS Frontend → Tinder-Style Swipe Deck & Saved Event List
